

VitalView and E-Mitter Bibliography

This bibliography contains animal research references for work that was done with VitalView. It includes references on research done with either E-Mitter transponders, Mini Mitter transmitters or running wheels where the data was collected with the VitalView Data Acquisition System.

If you know of papers that should be included here, we would appreciate receiving reprints if available, and if not, the full citation. Please email them to jessica.wojdak@respironics.com. Please send reprints to Jessica Wojdak, Respironics, 20300 Empire Avenue, Bldg. B-3, Bend, OR 97701, USA.
